

Maths Planning and Ideas

Week Commencing: 1st June 2020

Year Group: 2

Note to parents:

This week's planning is based around a video of a teacher delivering a year 2 skills lesson. This has been delivered by one of the Maths Hub leads in Durham. It is covering some of the core skills that children need to be able to understand and use in order to complete mental calculations more quickly.

I have split the video across three days and provided resources sheets to allow pupils to practise the skills they have been taught in the lesson.

As always, these sheets are provided to try and support the needs of all pupils, as far as we can. Please remember that if you have any questions or concerns, you can email me at oxcloseyear2@durhamlearning.net Mrs Phillips

Number Bond Sticks

These number bond sticks are made from 18 white cubes and 2 grey cubes.

$$18 + 2 = 20$$

Can you use two colours to make your own sticks with number bonds of 20? Write the matching number sentence below each picture.

Wednesday's activity

Odd and Even

The witches have been making a maths potion. Can you help them to spot the odd and even numbers in the bubbles?

Colour all of the odd numbers in yellow and all of the even numbers in blue.

How do you know if a number is odd or even?

Always, Sometimes, Never

$$\text{odd} + \text{odd} + \text{odd} = \text{odd}$$

Use one-digit numbers to test if this is true e.g.

$$3 + 5 + 7$$

Try this 3 times. What do you notice about the total?

Now try adding three even numbers. What do you think will happen? Are you correct?
