# Who Founded Hinduism?

No one knows!

Hinduism is the oldest of the world religions still practised today.

Those who have studied Hinduism and its origins believe that it is a fusion of different beliefs, cultures and traditions of the people who lived along the Indus River.

# Where Was Hinduism Founded?

Hinduism originated in South East Asia along the River Indus.

Ancient India was very different to today's India. The boundaries changed many, many times; we base our understanding of its location on the archaeological findings and ancient writings we have found.
